## 5. ELECTRICITY AND FUEL COSTS

<b>Fuel costs - fuel Traditional (diesel or gasoline) and hybrid vehicles</b>	<p><b>Returning the Vehicle</b> Unless you have agreed on a different refuelling option (see below), you should return the vehicle with the same amount of fuel as you had when you picked it up – usually a full tank – as shown on the factory-installed fuel gauge or automatically registered against connected cars. Turiscar advises the Customer to fill up as close as possible to the return station on the day of the return and to keep the receipt. If the Customer does not return the Vehicle with the same amount of fuel as when he picked it up, and cannot present the receipt for the refuelling, he will be charged the amount of the missing fuel, plus a supplement for the refuelling service of <b>18.45 EUR</b>. Should the Customer fail to use the correct fuel and a tank cleaning becomes necessary, such cleaning shall be charged at a cost of <b>265.58 EUR</b>, plus any repairs for damages caused.</p> <p><b>Refuelling options</b> <b>Express fuel</b> – this option allows the Customer to pay the amount corresponding to a full tank, according to the tank capacity indicated by the manufacturer for the rented vehicle, plus the costs incurred by Turiscar to refuel the vehicle on behalf of the Customer. In this case, you can return the Vehicle with the fuel level that is still in the tank (even if it is virtually empty), as long as the engine is still running. This cost is charged based on the fuel prices published at the beginning of your rental period on the government website <a href="https://precoscombustiveis.dgeg.gov.pt">https://precoscombustiveis.dgeg.gov.pt</a>.  This option is only available if you have added it as an option at the booking stage or upon request to add it to your rental before picking up the vehicle. If you have requested this option, the respective cost will appear in your rental agreement. However, you will not receive a refund for the fuel you do not spend.</p> <p><b>Pay at the time of return</b> – If you rent a connected car, you will need to ensure that the vehicle has the</p>

	<p>same level of fuel as when you picked it up (this is automatically recorded and calculated to the nearest litre).</p> <p>If you are renting a traditional fuel vehicle or a hybrid vehicle, you must ensure that the vehicle has the same quantity as when you picked it up based on the factory-installed fuel gauge rounded down to the nearest eighth (1/8) of a tank (costs are based on the manufacturer's stated fuel tank capacity). Should you return the vehicle with a lower fuel level, you will be charged the cost of the missing fuel, plus the refuelling service surcharge. The cost of the missing fuel shall be calculated based on the fuel prices published at the end of your rental period on the government website <a href="https://precoscombustiveis.dgeg.gov.pt">https://precoscombustiveis.dgeg.gov.pt</a>.</p>
